

## KENDRIYA VIDYALAYA, GANDIGRAM

**SUBJECT :EVS**

**TOPIC: CARE OF PLANTS**

**CLASS : I**

**MONTH: DECEMBER**

**PLANT:**

**# There are a number of plants around us.**

**# Plants are living things.**

**PARTS OF A PLANT:**

**Plants need soil,water, minerals, sunlight and air to grow.**

**KINDS OF PLANT:**

**TREES:**

**These are strong and tall. They stand erect.**

**Example :Coconut tree, mango tree, neem tree, banyan tree, palm tree**

## **SHRUBS:**

**They are not as strong as trees. They look like bushy.**

**Example: Rose, tulsi, cotton, shoe flower plant are shrubs.**

## **HERBS:**

**These are short and have weak and thin stem.**

**Example: Grass, mint, tomato, paddy and sunflower**

## **CLIMBERS:**

**They can not stand. They climb around a support.**

**Example:** Bean, grapevine, money plant, pea are climbers.

## **CREEPERS:**

**Some herbs with weak stems run along the ground.**

**Example:** Pumpkin, water melon, cucumber

### **CAREOF PLANTS**

**We must take care of plants and trees around us.**

**1. Water the plants regularly.**

**2. Plant more trees.**

**3. Add manure to the soil regularly, so that plants stay healthy.**

**We must not,**

**×Put indoor plants out in the sun for too long.**

**×Cut down trees.**

**×Step on flower beds while walking in a garden.**
